An event technology partnership

A connected experience for PAMCON.

A lasting opportunity for PAMAN members.

Festio × PAMAN

Festio × PAMAN • Partnership discussion

Who is Festio for?

Supporting the people who plan, deliver and celebrate.

Event managers

Team roles • runsheet • arrival records

Event planners

Budgets • vendors • tasks • seating

Caterers & vendors

Meal choices • orders • deliveries

Hall owners

Floor plans • entry zones • guest arrivals

Corporate teams

Delegates • sessions • engagement • reports

Celebrants

Invitations • family RSVP • passes • GuestHub

Support the member’s service, from client brief to guest experience.

The complete Festio platform

From the first plan to the final report.

Event gift and support options

Experience & programme
Checkpoints, sessions and speakers

Festio Live
Polls, quizzes, Q&A and displays

Content & community
Sponsors, calls, groups, meetups

Feedback & certificates
Forms, consent, resources, certificates

Results & organisation
Exports, contacts, calendars, API

One connected platform. Configured for the event you deliver.

One guest journey, from invitation to feedback

One connected experience before, during and after the event.

Discover

Event website or existing website link

→

Respond

RSVP, family guests or ticket checkout

→

Receive

Personal pass and GuestHub information

→

Attend

QR/manual entry and configured services

→

Participate

Programme, Live and community

→

Review

Feedback and recorded event outcomes

Before → during → after. Less copying between disconnected records.

Plan the event and the business delivery

Bring clients, suppliers and delivery teams together.

Budget & quotes

Organize costs; compare vendor quotes

Vendors & contracts

Keep supplier and document records

Milestones & runsheet

Coordinate deadlines and the event timeline

Team & tasks

Assign owners and appropriate access

Tables & floor plan

Prepare seating around guest categories

Contacts & calendar

Reuse contact lists and planning records

One connected platform. Configured for the event you deliver.

Invite guests with the event’s identity

A branded welcome, a simpler response and one place for guests.

Design & artwork

Upload cover, logo or finished flyer artwork

Website & RSVP

Publish approved details and response rules

Guests & families

Import lists; capture each permitted attendee

Tickets & giving

Configure prices, codes and relevant campaigns

Messages & reminders

Use enabled email, SMS and WhatsApp channels

GuestHub & updates

Pass, directions and enabled event information

One connected platform. Configured for the event you deliver.

Operate the entrance, floor and service points

Connect guest arrivals with the teams delivering the experience.

Pass & admission

QR or permitted manual guest lookup

Gates & zones

Configure entry access and authorized staff

Seats & tables

Coordinate floor assignments and changes

Meals & orders

Use the event’s configured choices and records

Deliveries & gifts

Packing lists, delivery and gift options

Experience steps

Record the configured guest checkpoints

Managers coordinate. Hall teams admit. Vendors serve. Records connect the work.

Programme, participation and the live show

Bring the programme to life and give every audience a voice.

Sessions & speakers

Multi-day programme and approved speakers

Attendance & rules

Configured eligibility, timing and capacity

Polls & word clouds

Invite audience input

Moderated Q&A

Manage audience questions and responses

Quizzes & voting

Run the enabled activity format

Presenter & projector

Operate controls, resources and displays

One connected platform. Configured for the event you deliver.

Keep connections and close the loop

Turn participation into connections, feedback and useful event records.

Groups & channels

Enabled FestioMe spaces and moderation

Meetups & interaction

Approved meetups and permitted conversations

Partners & submissions

Sponsor listings, calls, proposals and tracks

Forms & consent

Capture event information using agreed rules

Feedback & certificates

Review feedback; issue enabled certificates

Reports & integrations

Exports, results and agreed API/webhook workflows

One connected platform. Configured for the event you deliver.

What this means for PAMAN members

Different businesses. Shared information. Better coordinated events.

Manager: convention

Assigned teams → controlled entry → client report

Planner: wedding

Vendor plan → family RSVP → seating updates

Caterer: gala

Confirmed guests → meal categories → service review

Hall: banquet

Floor plan → entry zones → arrival picture

Corporate: conference

Delegates → sessions → audience participation

Celebrant: occasion

Personal invite → guest pass → simpler arrival

The same capabilities, configured for different kinds of event.

Our proposition to PAMAN

Experience Festio at PAMCON, then explore the opportunity for member businesses.

PAMCON platform

Provide the technology platform for PAMCON 2026 at no software cost.

Technology partnership

Work with PAMAN as its Event Technology Partner for the event.

Member opportunity

Explore how Festio can support the client events PAMAN members manage.

Proposed partnership • PAMCON 2026 • Scope and delivery arrangements to be agreed.

Let’s build this with PAMAN.

Start with PAMCON. Shape the wider member opportunity together.

The PAMCON experience

A connected journey from registration to reporting.

The member opportunity

Practical event tools for planners, vendors and venue teams.

Joint preparation

PAMAN-approved identity, venue, programme and event content.

The next conversation

Agree priorities, partnership scope and the people who will lead it.

Your expertise. Connected technology. A stronger event experience.
