FESTIO KNOWLEDGE UPDATE · OCTOBER 6, 2026

Current capabilities and operating limits

> Read these current instructions before the original material that follows. Earlier presentations, proposed workflows and screenshots are historical context. They do not override the limits below or prove a feature passed a venue rehearsal. Prices and customer-specific commitments must be confirmed separately.

Capability	Implemented behavior and conditions
General admission	QR/manual admission with immediate result feedback; event, staff access and guest rules still apply.
Offline preparation	Prepare this scanner online. An event-matched manifest expires after 30 minutes. Eligible general admissions can be queued locally while the page stays open.
Reconnection	Server revalidates saved admissions. Needs review means not accepted. Resolve and retry; do not clear browser data with pending records.
Junior handoffs	Online authorized guardian QR, or permitted staff identity verification and selection. Pending/unrelated authorizations cannot release a junior.
Daily/session attendance	Online records distinct from admission. Daily attendance uses event-local dates. Session checks enforce eligibility, timing and capacity; an age override requires authorization and a reason.
Multi-day programme	All configured dated sessions with valid times, rooms, speakers and age groups. Search does not override eligibility; absent speaker details need organizer input.
Speaker Q&A / quiz	Separate moderated Q&A activities per speaker/session; guests can ask again. Timed quiz countdown/reveal/advance requires active timing and Guided Show automation.
FestioMe	GuestHub entry, chats, permitted DMs, invite-only groups, meetups and moderator controls. Announcement channels are read-only for ordinary guests.
Broadcasts	Review explicit/ticket-type recipients, channel consent and credits. Queued is not delivered; inspect final delivery records. Scheduled dynamic/frozen audiences are separate choices.

Not established: offline startup/reload, offline junior release, shared duplicate/occupancy state between disconnected devices, passive RFID, guaranteed network speed, or complete parity with another platform.

OPERATING HANDOVER

Rehearse the complete flow

Prepare → Record → Reconcile

Current operating procedure · October 6, 2026

1. ONLINE PREPARATION

Correct Active event

Prepare this scanner

Verify count + expiry

30-minute saved manifest

2. SHORT OUTAGE

Keep the page open

Eligible QR / manual admission

Blue result = locally queued

Duplicate checks: this device

3. RECONNECT

Sync saved check-ins

Server revalidates every record

Resolve Needs review

Do not clear pending records

Keep protected operations online

Guardian handoffs · daily/session attendance · check-out · live admission requirements

No offline startup/reload or cross-device duplicate guarantee. Rehearse with the venue network.

1. **Before arrival:** verify external registration/import ownership, guest identifiers and phone countries; publish the programme and validate all dates/rooms/speakers.
2. **Staff briefing:** assign event access and station actions. Demonstrate admitted, duplicate, denied and locally queued outcomes. Check the guardian authorization list and permitted verification method.
3. **Outage rehearsal:** use fictional guests on staging. Prepare a scanner online; disconnect, queue an eligible admission, reconnect, inspect reconciliation and a rejected record. Repeat on actual venue devices.
4. **Programme rehearsal:** demonstrate daily presence, session entry/exit, age denial and authorized exception. Confirm that an exception does not bypass capacity, timing or guardian rules.
5. **Live rehearsal:** submit two questions to the correct moderated speaker queue. Run a separate timed quiz, checking guest countdown, display reveal, next/previous and clear-display controls.
6. **Communication:** create a fictional group/meetup, inspect read-only announcements, then preview a selected broadcast audience. Send only to explicitly approved test recipients and verify delivery.
7. **Closing:** reconnect all scanners and resolve pending records before ending the event. Reconcile contributions, export permitted records and retain audit evidence.

Conference Center, website publication/FAQs, Giving Hub/finance, session materials, certificates and versioned Academy are documented in the full Help guide. Availability depends on configuration, permission and entitlement.

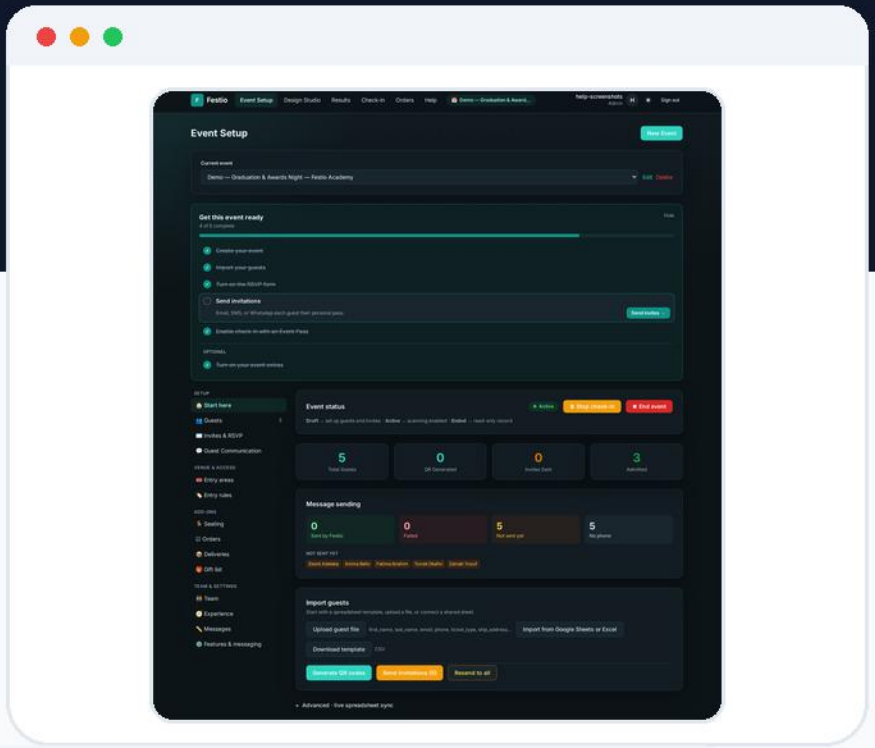

Current reference: /media/festio-current-operations.html
Full Help: /guide.html · **Academy:** /training

> This is documentation of implemented workflows, not a venue readiness certificate. Existing tests and dates in the original material remain historical. Event-owner approval is still needed for factual schedules, candidate lists, consent language and contact details.

INTRODUCTORY GUIDE

Festio

Invitations, RSVPs, QR check-in, and live event operations in one app.

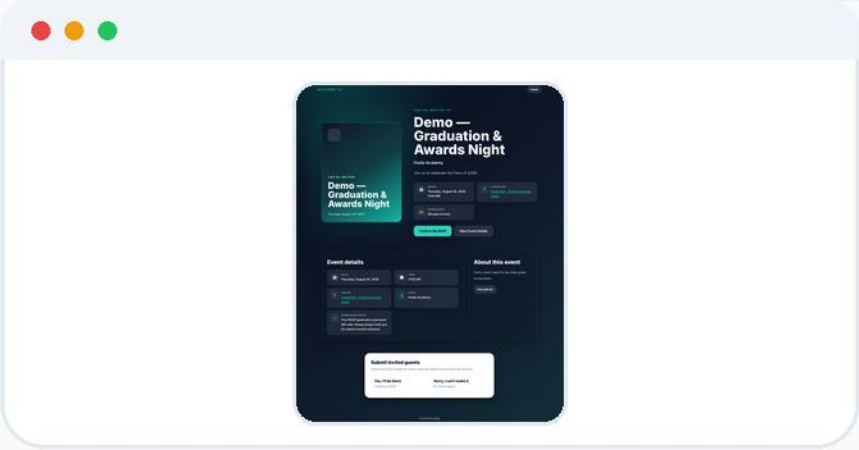

Built for organizers who need a clean guest list, reliable entry, and real-time visibility on event day.

Use this short PDF to understand the end-to-end workflow before creating your first event.

Target audience

- Event planners and professional organizers
- Hall owners, venues, and event centers
- Caterers, waiter services, and hospitality teams
- Companies running launches, conferences, and staff events

HOW IT WORKS

From guest list to the door

Festio keeps the event lifecycle in one workspace, so your team is not stitching together spreadsheets, messaging apps, and paper lists.

1

Create event

Set name, host, date, slug, and status.

2

Add guests

Import a spreadsheet or sync from a shared sheet.

3

Invite and RSVP

Send personal links by email, SMS, or WhatsApp.

4

Check in

Scan QR tickets from any phone browser.

5

Review results

Track RSVPs, arrivals, occupancy, and orders.

Guest management: import, search, RSVP status, ticket type, and check-in record.

Results: live counts, RSVP breakdown, check-in timing, and operational summaries.

ORGANIZER SETUP

Create the event, then invite the right people

Event workspace

Each event has its own guests, invite settings, features, and team permissions.

Flexible import

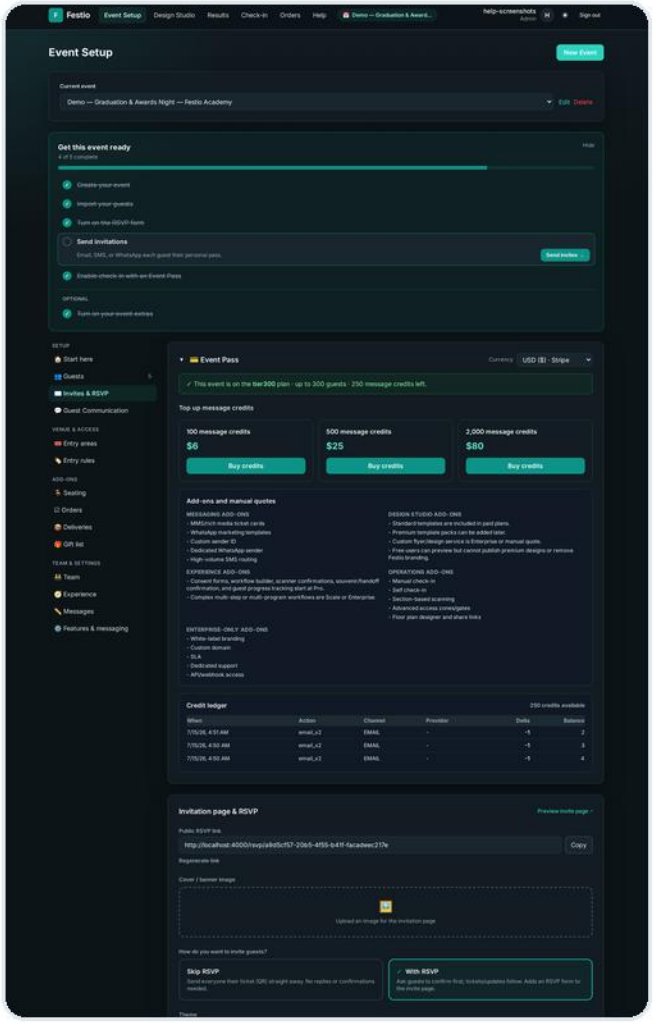

Upload CSV/Excel-style guest files or use shared sheet links for repeat sync.

Invitation categories

Let one submitter register a whole party, cap guests per category, and auto-seat everyone at the right table.

Per-field RSVP control

Choose Optional, Required, or Don't ask for email and phone, separately for the submitter and their guests.

Invite and RSVP setup with deadlines, approval, custom questions, cover image, and preview.

EVENT DAY

Fast QR admission from any phone

Staff open the Check-in page, choose a gate or area, start the camera, and scan each guest's QR ticket. Results are immediate: admitted, already admitted, or denied by rule.

No app install

The scanner runs in a mobile browser, which keeps event-day setup simple.

Access rules

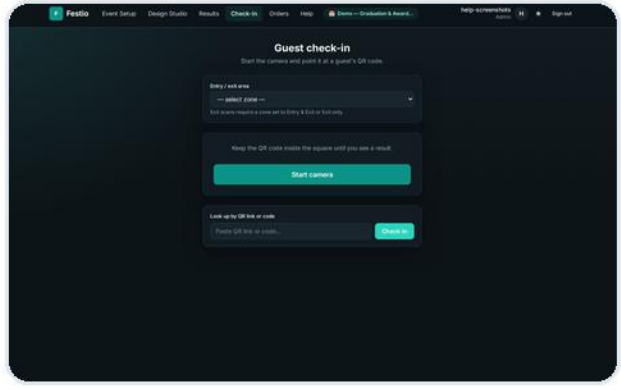

Paid events can enforce ticket types, zones, gates, and venue capacity.

Live feedback

Green, yellow, and red outcomes help staff act quickly at the door.

Team roles

Admins manage the event; staff get focused access to check-in and results.

Check-in page: camera scanning, manual lookup, recent scans, and gate context.

PAID OPERATIONS

Add the tools your event actually needs

Event Passes unlock the higher-touch workflows that matter for formal events, venues, teams, vendors, and multi-zone entry.

Seating and multi-day menus

Auto-seat guests by invitation category, and publish a day-tabbed food menu on every pass and FestioHub.

Entry areas

Control who can enter VIP, backstage, or other areas using ticket rules and tags.

Deliveries

Collect addresses and manage packing, shipping, or gift delivery by guest.

Gift list

Coordinate gift items or cash funds without duplicate claims.

ACCESS AND PRICING

Simple roles. Simple event passes.

Start free for small email-only events. Upgrade per event when you need QR check-in, SMS/WhatsApp delivery, more guests, or advanced operations.

Free tier

Up to 25 guests, email invitations, self-serve RSVP, and custom questions.

Event Pass

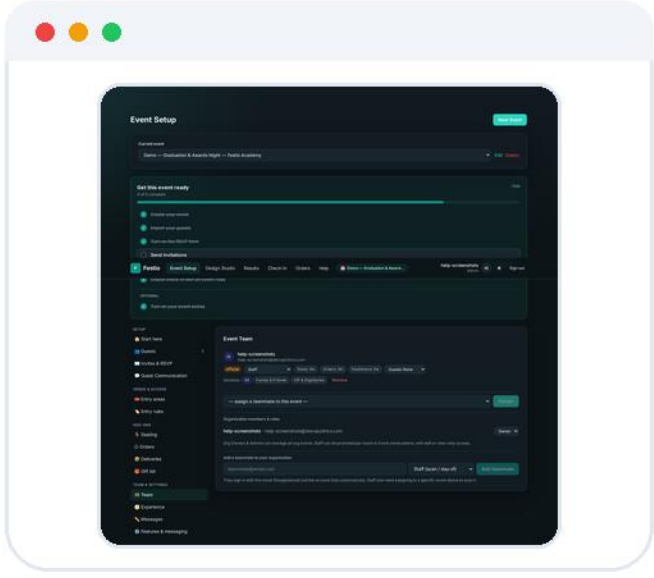

Unlock QR check-in, message credits, seating, orders, access zones, logistics, and registry.

Team access

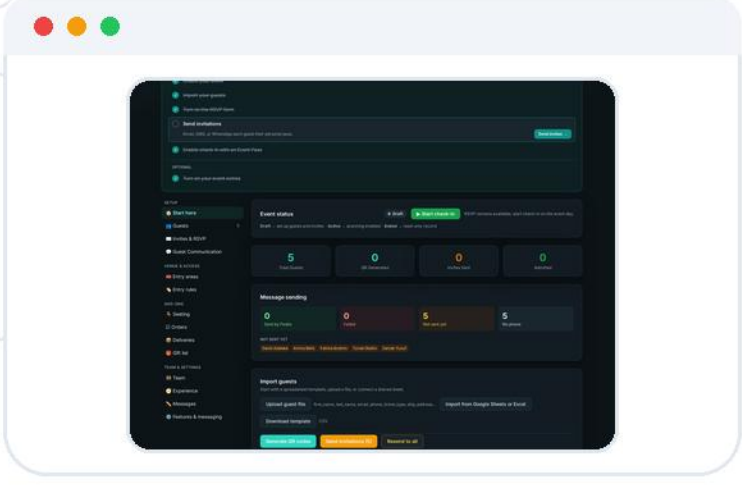

Assign admins, staff, and read-only order access to the right event.

Message credits

Top up credits for SMS and WhatsApp broadcasts or personal invite sends.

Team permissions and event assignment.

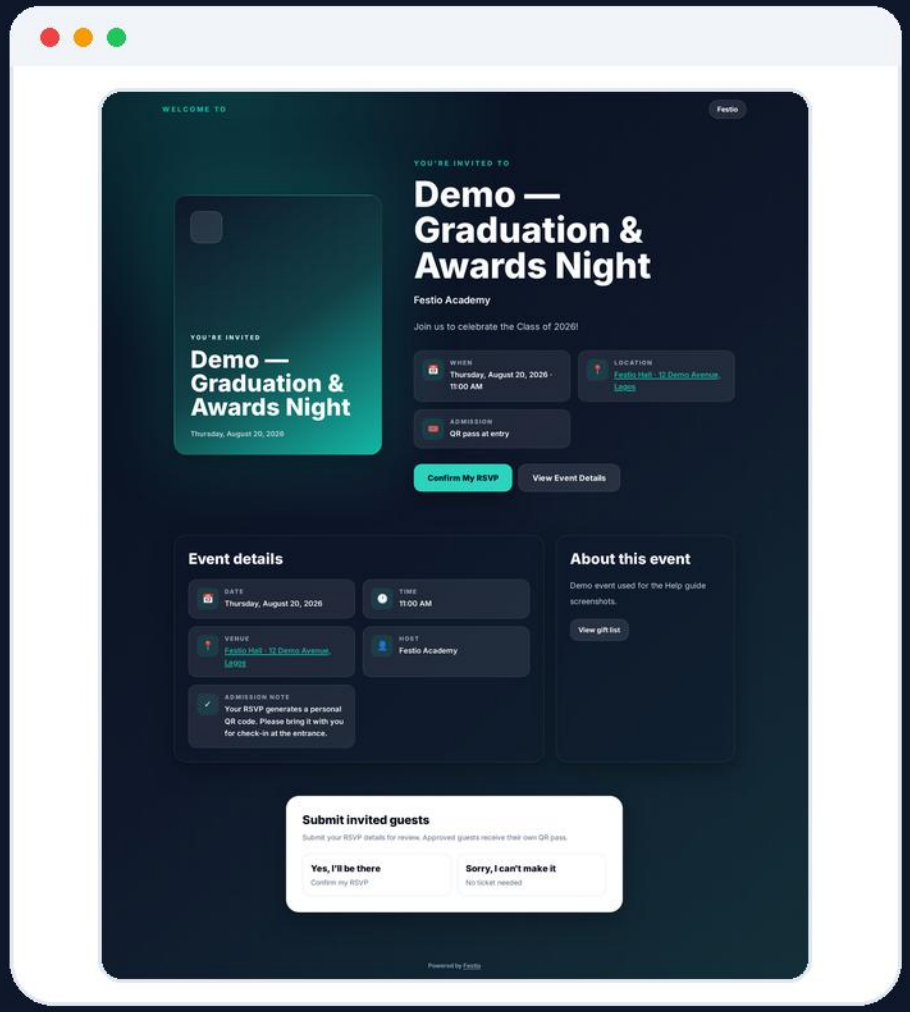

Event Pass area with tiers and usage.

NEXT STEP

Run your first event in Festio

1. Create an account
2. Create a draft event
3. Import a small test guest list
4. Send yourself an invite
5. Activate the event and scan your ticket

festio.events/register

Guest ticket page with RSVP details and QR access.

Festio - invitations, RSVPs, QR check-in, and event operations.
