FESTIO KNOWLEDGE UPDATE · OCTOBER 6, 2026

Current capabilities and operating limits

> Read these current instructions before the original material that follows. Earlier presentations, proposed workflows and screenshots are historical context. They do not override the limits below or prove a feature passed a venue rehearsal. Prices and customer-specific commitments must be confirmed separately.

Capability	Implemented behavior and conditions
General admission	QR/manual admission with immediate result feedback; event, staff access and guest rules still apply.
Offline preparation	Prepare this scanner online. An event-matched manifest expires after 30 minutes. Eligible general admissions can be queued locally while the page stays open.
Reconnection	Server revalidates saved admissions. Needs review means not accepted. Resolve and retry; do not clear browser data with pending records.
Junior handoffs	Online authorized guardian QR, or permitted staff identity verification and selection. Pending/unrelated authorizations cannot release a junior.
Daily/session attendance	Online records distinct from admission. Daily attendance uses event-local dates. Session checks enforce eligibility, timing and capacity; an age override requires authorization and a reason.
Multi-day programme	All configured dated sessions with valid times, rooms, speakers and age groups. Search does not override eligibility; absent speaker details need organizer input.
Speaker Q&A / quiz	Separate moderated Q&A activities per speaker/session; guests can ask again. Timed quiz countdown/reveal/advance requires active timing and Guided Show automation.
FestioMe	GuestHub entry, chats, permitted DMs, invite-only groups, meetups and moderator controls. Announcement channels are read-only for ordinary guests.
Broadcasts	Review explicit/ticket-type recipients, channel consent and credits. Queued is not delivered; inspect final delivery records. Scheduled dynamic/frozen audiences are separate choices.

Not established: offline startup/reload, offline junior release, shared duplicate/occupancy state between disconnected devices, passive RFID, guaranteed network speed, or complete parity with another platform.

OPERATING HANDOVER

Rehearse the complete flow

Prepare → Record → Reconcile

Current operating procedure · October 6, 2026

1. ONLINE PREPARATION

Correct Active event

Prepare this scanner

Verify count + expiry

30-minute saved manifest

2. SHORT OUTAGE

Keep the page open

Eligible QR / manual admission

Blue result = locally queued

Duplicate checks: this device

3. RECONNECT

Sync saved check-ins

Server revalidates every record

Resolve Needs review

Do not clear pending records

Keep protected operations online

Guardian handoffs · daily/session attendance · check-out · live admission requirements

No offline startup/reload or cross-device duplicate guarantee. Rehearse with the venue network.

1. **Before arrival:** verify external registration/import ownership, guest identifiers and phone countries; publish the programme and validate all dates/rooms/speakers.
2. **Staff briefing:** assign event access and station actions. Demonstrate admitted, duplicate, denied and locally queued outcomes. Check the guardian authorization list and permitted verification method.
3. **Outage rehearsal:** use fictional guests on staging. Prepare a scanner online; disconnect, queue an eligible admission, reconnect, inspect reconciliation and a rejected record. Repeat on actual venue devices.
4. **Programme rehearsal:** demonstrate daily presence, session entry/exit, age denial and authorized exception. Confirm that an exception does not bypass capacity, timing or guardian rules.
5. **Live rehearsal:** submit two questions to the correct moderated speaker queue. Run a separate timed quiz, checking guest countdown, display reveal, next/previous and clear-display controls.
6. **Communication:** create a fictional group/meetup, inspect read-only announcements, then preview a selected broadcast audience. Send only to explicitly approved test recipients and verify delivery.
7. **Closing:** reconnect all scanners and resolve pending records before ending the event. Reconcile contributions, export permitted records and retain audit evidence.

Conference Center, website publication/FAQs, Giving Hub/finance, session materials, certificates and versioned Academy are documented in the full Help guide. Availability depends on configuration, permission and entitlement.

Current reference: /media/festio-current-operations.html
Full Help: /guide.html · **Academy:** /training

> This is documentation of implemented workflows, not a venue readiness certificate. Existing tests and dates in the original material remain historical. Event-owner approval is still needed for factual schedules, candidate lists, consent language and contact details.

F

Festio

Guest experience, RSVP, check-in, and event operations

festio.events
info@devopclinics.com
September 2026

The complete event workflow from invite to door to table.

Festio helps organizers create branded invite pages, collect RSVPs, send WhatsApp/SMS/email invites, check guests in by QR, manage venue access, seating, orders, deliveries, and gift lists, and watch live Results — one pay-per-event platform.

WHAT IT REPLACES

Invites & RSVP

Open links or personal invite links, approvals, deadlines, custom questions, and broadcast updates.

Check-in

Browser-based QR check-in for staff — no app install — with offline caching and a live audit trail.

Venue access

Zones, gates, ticket types and tags, occupancy limits, and guest-journey analytics.

Seating & orders

Tables, partner pairing, meal/drink/gift choices, and a live kitchen order queue.

Deliveries

Aso-ebi, merch, welcome bags — vendor packing lists, addresses, and fulfilment status.

Gift list

Wishlist items and cash funds, claims, and direct giving — no money handled by Festio.

WORKFLOW

Event Setup · Invites · RSVP · Check-in · Orders · Results

BUILT FOR
