FESTIO KNOWLEDGE UPDATE · OCTOBER 6, 2026

Current capabilities and operating limits

> Read these current instructions before the original material that follows. Earlier presentations, proposed workflows and screenshots are historical context. They do not override the limits below or prove a feature passed a venue rehearsal. Prices and customer-specific commitments must be confirmed separately.

Capability	Implemented behavior and conditions
General admission	QR/manual admission with immediate result feedback; event, staff access and guest rules still apply.
Offline preparation	Prepare this scanner online. An event-matched manifest expires after 30 minutes. Eligible general admissions can be queued locally while the page stays open.
Reconnection	Server revalidates saved admissions. Needs review means not accepted. Resolve and retry; do not clear browser data with pending records.
Junior handoffs	Online authorized guardian QR, or permitted staff identity verification and selection. Pending/unrelated authorizations cannot release a junior.
Daily/session attendance	Online records distinct from admission. Daily attendance uses event-local dates. Session checks enforce eligibility, timing and capacity; an age override requires authorization and a reason.
Multi-day programme	All configured dated sessions with valid times, rooms, speakers and age groups. Search does not override eligibility; absent speaker details need organizer input.
Speaker Q&A / quiz	Separate moderated Q&A activities per speaker/session; guests can ask again. Timed quiz countdown/reveal/advance requires active timing and Guided Show automation.
FestioMe	GuestHub entry, chats, permitted DMs, invite-only groups, meetups and moderator controls. Announcement channels are read-only for ordinary guests.
Broadcasts	Review explicit/ticket-type recipients, channel consent and credits. Queued is not delivered; inspect final delivery records. Scheduled dynamic/frozen audiences are separate choices.

Not established: offline startup/reload, offline junior release, shared duplicate/occupancy state between disconnected devices, passive RFID, guaranteed network speed, or complete parity with another platform.

OPERATING HANDOVER

Rehearse the complete flow

Prepare → Record → Reconcile

Current operating procedure · October 6, 2026

1. ONLINE PREPARATION

Correct Active event

Prepare this scanner

Verify count + expiry

30-minute saved manifest

2. SHORT OUTAGE

Keep the page open

Eligible QR / manual admission

Blue result = locally queued

Duplicate checks: this device

3. RECONNECT

Sync saved check-ins

Server revalidates every record

Resolve Needs review

Do not clear pending records

Keep protected operations online

Guardian handoffs · daily/session attendance · check-out · live admission requirements

No offline startup/reload or cross-device duplicate guarantee. Rehearse with the venue network.

1. **Before arrival:** verify external registration/import ownership, guest identifiers and phone countries; publish the programme and validate all dates/rooms/speakers.
2. **Staff briefing:** assign event access and station actions. Demonstrate admitted, duplicate, denied and locally queued outcomes. Check the guardian authorization list and permitted verification method.
3. **Outage rehearsal:** use fictional guests on staging. Prepare a scanner online; disconnect, queue an eligible admission, reconnect, inspect reconciliation and a rejected record. Repeat on actual venue devices.
4. **Programme rehearsal:** demonstrate daily presence, session entry/exit, age denial and authorized exception. Confirm that an exception does not bypass capacity, timing or guardian rules.
5. **Live rehearsal:** submit two questions to the correct moderated speaker queue. Run a separate timed quiz, checking guest countdown, display reveal, next/previous and clear-display controls.
6. **Communication:** create a fictional group/meetup, inspect read-only announcements, then preview a selected broadcast audience. Send only to explicitly approved test recipients and verify delivery.
7. **Closing:** reconnect all scanners and resolve pending records before ending the event. Reconcile contributions, export permitted records and retain audit evidence.

Conference Center, website publication/FAQs, Giving Hub/finance, session materials, certificates and versioned Academy are documented in the full Help guide. Availability depends on configuration, permission and entitlement.

Current reference: /media/festio-current-operations.html
Full Help: /guide.html · **Academy:** /training

> This is documentation of implemented workflows, not a venue readiness certificate. Existing tests and dates in the original material remain historical. Event-owner approval is still needed for factual schedules, candidate lists, consent language and contact details.

F Festio

The complete guest-experience platform.

From invite to the door, and everything inside — invitations, RSVP, WhatsApp/SMS, QR check-in, entry areas, seating, orders, deliveries, and gift list. One platform, pay per event.

🇳🇬 🇺🇸

Event planners · Hall owners · Caterers · Waiter services · Companies

Investor & partner pitch · Confidential · June 2026 · festio.events · info@devopclinics.com

RUNNING AN EVENT STILL MEANS STITCHING 6 TOOLS TOGETHER

Planners are flying blind — and guests feel it.

📬 Invitations & RSVP

WhatsApp threads, paper cards, spreadsheets — no single source of truth for who's coming.

🐌 Check-in chaos

Printed list + pen = long queues, no real-time view, no audit trail.

🔐 Manual access control

VIP rooms, backstage, restricted zones — managed by memory and a bouncer with a clipboard.

🍽️ Order guesswork

Meal, drink, and gift counts guessed — wasted prep, unhappy guests, no per-table Orders view.

👗 Aso-ebi & logistics chaos

Merch orders, gifts, aso-ebi fabric distribution tracked off-platform in DMs and notes.

📊 No live results

Organizers have zero visibility on the day — no occupancy, no RSVP-vs-actual view.

The cost: Planners juggle 6+ tools (ticketing apps, invite tools, spreadsheets, group chats). Data is fragmented, the guest experience suffers, and there is no system of record for the event. Social celebrations (weddings, owambe) and corporate events share the same pain — and no single tool serves both markets well.

ONE PLATFORM FOR THE WHOLE EVENT LIFECYCLE

Festio replaces every tool — from invite to the door to the table.

Invite & RSVP

Branded pages, open or per-guest links, WhatsApp / SMS / email, approvals & deadlines, CSV/Google Sheet import.

QR Check-in

Personal QR per guest; instant admission from any phone — no app required for guests or staff.

Entry Areas & Rules

Areas + tag/ticket rules + gates; scan in/out, live occupancy & flow — VIP, backstage, general.

Seating & Orders

Tables & auto-seating; guests pick meals, drinks, gifts, or other items; live order totals by table.

Deliveries & Gift List

Ship aso-ebi/merch & gifts; mark-only gift list & cash funds; fulfillment tracking.

Results

Real-time check-in, RSVP, occupancy, orders & per-table reporting — for planner and operator.

SELF-SERVE RSVP ON THE CHANNEL GUESTS ACTUALLY USE

WhatsApp, SMS & Email — not a bolt-on. The delivery engine.

💬

WhatsApp

The #1 communication channel in Nigeria — **90%+ smartphone penetration**. Branded invite messages, QR ticket delivery, RSVP confirmations, reminders and day-of broadcasts sent directly into the chat guests already check first.

🇳🇬 **Nigeria edge — guests respond to WhatsApp. Email goes unread.**

📱

SMS

Works without data or internet — critical for **rural venues, large outdoor events and guests on basic phones**. Admission confirmation, table assignment and event updates reach every guest, no smartphone required.

📡 **Zero data required — works in low-signal venues.**

✉️

Email

Branded invite pages with inline QR ticket, deadline reminders, auto-confirmation on RSVP, and post-event follow-up. Free tier runs on email only — the zero-friction entry point that converts organizers to paid.

🆓 **Free tier — email invites up to 25 guests, no credit card.**

📅 Full guest lifecycle messaging

Invite	Branded invite with RSVP link + per-guest QR
Confirm	Instant confirmation with QR ticket on RSVP
Remind	24hr & 1hr before — automated, zero planner effort
Admit	Check-in confirmation with table & seat info
Broadcast	Host can push live updates to all guests mid-event

💳 Message credits — recurring revenue

SMS & WhatsApp sends are billed from a pre-purchased credit balance — **top-ups drive recurring revenue** independent of event-pass sales. ~40% gross margin on credits after provider cost.

$0.04	₦20	~40%
per message (US)	per message (NG)	gross margin

TARGET CUSTOMERS ACROSS THE EVENT VALUE CHAIN

Festio sells to the people who run, host, feed, staff, and sponsor events.

Event planners
Manage guest lists, invites, RSVP, check-in, seating, vendors and reporting from one workspace.

Hall owners
Offer branded digital check-in, gate control and live occupancy as a venue upsell.

Caterers
Get accurate meal, drink and table-level order totals before and during service.

Waiter services
Use read-only orders and seating views so floor teams know who needs what.

Companies
Run launches, conferences, training, staff parties and customer events with audit-ready results.

🇳🇬 Nigeria & West Africa

$6B+

Nigerian social events industry (annual)

- ~1.2M weddings/year; 300–500 guests average
- Buyers: planners, halls, caterers, waiter services
- Tooling today: WhatsApp + spreadsheets + cash
- **Edge:** WhatsApp-first, Naira pricing (Paystack), aso-ebi & family-event seating

🇺🇸 United States

$70B+

US wedding industry + corporate events

- 2.5M weddings/year; $400B+ corporate & association events
- Buyers: boutique venues, planners, caterers, companies
- Event management software: $14.5B (2024) → $28.3B by 2030 at 11.1% CAGR
- **Edge:** Full-stack at SMB pricing; no lock-in subscription

TAM
$14.5B
Global event management software
(Grand View Research, 2024)

SAM
$4.8B
US SMB social events + Nigeria digital events — organizer-facing software

SOM — YEAR 3
$12M ARR
120K events at blended $100 ARPE — 0.25% SAM penetration

FOCUSED BEACHHEAD → EXPAND

Win Nigeria weddings. Win US boutique venues. Scale from there.

PHASE 1 — Q3 2026 · NIGERIA LAUNCH

🇳🇬 Lagos Weddings & Owambe

- Partner with 10 top Lagos event planners as design partners (free tier + dedicated onboarding)
- Instagram & TikTok content marketing — showcase day-of experience
- WhatsApp community seeding via planners & aso-ebi groups
- Paystack-native payments, Naira pricing removes friction
- **Target:** 500 events, 200K guests in 6 months

PHASE 1 — Q3 2026 · US LAUNCH

🇺🇸 Boutique Venues & Planners

- Partner with 5 boutique venues in Atlanta & Houston (high Nigerian diaspora density)
- Referral incentive: venues earn commission per event booked through platform
- SEO + Google Ads targeting "event check-in software SMB"
- AppSumo / ProductHunt launch for PLG awareness
- **Target:** 250 events in 6 months

PHASE 2 — Q1 2027 · GROWTH

📈 Scale & Repeat Organizers

- Self-serve onboarding funnel (free → paid conversion via feature gates)
- Planner certification program — certified Festio pros earn referrals
- Expand to Abuja, Port Harcourt; New York, Houston
- API integrations: venue booking platforms, florists, caterers
- **Target:** 8,000 events/yr, $500K ARR

PHASE 3 — 2028 · ENTERPRISE & EXPANSION

🏢 Corporate & West Africa

- Corporate tier: custom domains, SSO, data residency (GDPR / nLPD)
- Expand to Ghana, Kenya; deepen US corporate events
- Venue SaaS white-label licensing
- Deliveries API for aso-ebi, gifting, and fulfilment platforms
- **Target:** 50K events/yr, $2.5M+ ARR

⚡ Customer acquisition cost (CAC) assumptions: Nigeria ≈ $8 via planner partnerships & WhatsApp; US ≈ $45 via digital ads + venue referral. Target LTV:CAC ≥ 8:1 by Year 2 at repeat-organizer rates.

EVERYONE OWNS A SLICE. NOBODY OWNS THE WHOLE EVENT.

Festio is the only end-to-end platform for both markets.

Why Festio wins and keeps winning

Live & deployed

Not a concept — full platform is deployed at festio.events, multi-tenant, with billing, messaging providers, and an operator console.

End-to-end system of record

One dataset from invite → door → table. No context lost between tools. Organizers see everything in Results.

Dual-market by design

WhatsApp-first + Naira (Paystack) for Nigeria; premium check-in + USD Stripe for the US. Not bolted on — core to the architecture.

Access intelligence no one else offers

Tag-driven entry areas & gates that enterprise ticketing tools charge $15K+/yr for — available at SMB pricing.

Operations others ignore

Orders by table, aso-ebi/merch deliveries, gift list. These are the unsexy workflows that create organizer lock-in.

Frictionless pricing

Free to start, pay per event, no annual contract. Zero activation barrier drives top-of-funnel growth.

Multi-tenant ops console

Orgs, staff roles (check-in / orders / results), operator console — enables agency & venue white-labeling as an upsell.

Shipped: Invites · RSVP · QR check-in · Entry areas & gates · Seating · Orders · Deliveries · Gift list · Results · WhatsApp/SMS/Email · Billing (USD & NGN) · Multi-tenant & roles · Operator console · Trials & comps

REVENUE SCALES WITH EVENTS, NOT SEATS

Pay-per-event with upsell on messages, capacity & enterprise.

🆓 **Free** TOP OF FUNNEL	Email invites only, up to 25 guests, first 25 emails/event free, Festio branding. Entry point for first-time organizers — no credit card required.	**$0 / ₦0**
🎟️ **Starter** PER EVENT · UP TO 50 GUESTS · 100 CREDITS	SMS/WhatsApp/email invites, QR check-in, basic seating, basic menu/registry/logistics, branding removed, Design Studio publishing.	**$29 / ₦29,000**
🎪 **Standard** PER EVENT · UP TO 150 GUESTS · 300 CREDITS	Everything in Starter + table groups & floor plan sharing, access zones & ticket types, file/URL guest import, public registry page.	**$59 / ₦65,000**
🏟️ **Pro** PER EVENT · UP TO 300 GUESTS · 700 CREDITS	Everything in Standard + Experience workflows, consent forms, scanner/souvenir confirmation, section-based scanning, MMS eligibility.	**$99 / ₦110,000**
🚀 **Scale** PER EVENT · UP TO 1,000 GUESTS · 2,000 CREDITS	Everything in Pro + higher-volume operations, multi-section check-in, larger message batches, priority support.	**$149 / ₦180,000**

ARPE = Average Revenue Per Event (blended Event Pass + message credits). Nigeria ARPE assumes ₦ pricing equivalent at $1 = ₦1,600 (hedge: ₦ revenue partially offsets FX risk). OpEx includes seed headcount of ~8 FTEs by Y2. Projections are forward-looking estimates and subject to significant uncertainty — for illustrative purposes only.

Product complete & deployed — ready to scale

Live at festio.events

✅ Live	50	Early
Full platform deployed (multi-tenant)	Events powered to date	Revenue stage — seeking first paying events

✅ Shipped & running

- ✔ Multi-tenant orgs, staff roles, operator console
- ✔ Payments: USD (Stripe) & NGN (Paystack), message-credit billing
- ✔ Comps & trials engine
- ✔ WhatsApp / SMS / email provider integrations
- ✔ Full QR check-in, entry areas, seating, orders, gift list

➡️ Near-term roadmap

- → 10 design-partner planners (Lagos + Houston)
- → Native iOS / Android check-in app
- → Offline check-in mode (poor-connectivity venues)
- → GDPR / Swiss-nLPD kit & data residency for enterprise
- → Venue, orders, and fulfilment API integrations

Platform has powered 50 events. Currently in pre-revenue / design-partner stage — first paid events targeted Q3 2026.

THE BUILDERS BEHIND THE PLATFORM

Experienced, cross-market, already shipping.

O

Onaolapo

Founder & CEO · Product & Strategy

15 years in event management & planning, combined with deep IT and tech expertise. Intimately understands both the organizer's pain and the technology to solve it — a rare dual-market founder who has lived the problem firsthand across Nigeria and the US.

+

CTO / Lead Engineer

Engineering & Architecture — Hiring

Actively seeking a technical co-founder or senior engineer with full-stack / mobile background. Platform is already live and multi-tenant — ideal candidate accelerates native app & API roadmap.

+

GTM / Commercial Lead

Sales, Partnerships & Growth — Hiring

Seeking a commercial lead with planner network in Lagos and/or Houston. Seed funding will accelerate this hire as a Day 1 priority.

🌱 Why this team wins

Onaolapo brings 15 years of on-the-ground event management experience — he has personally run large-scale events across Nigeria and understands every friction point the platform solves. The product is built, live, and has already powered 50 events. Seed capital funds go-to-market and team expansion, not product discovery.
