FESTIO KNOWLEDGE UPDATE · OCTOBER 6, 2026

Current capabilities and operating limits

> Read these current instructions before the original material that follows. Earlier presentations, proposed workflows and screenshots are historical context. They do not override the limits below or prove a feature passed a venue rehearsal. Prices and customer-specific commitments must be confirmed separately.

Capability	Implemented behavior and conditions
General admission	QR/manual admission with immediate result feedback; event, staff access and guest rules still apply.
Offline preparation	Prepare this scanner online. An event-matched manifest expires after 30 minutes. Eligible general admissions can be queued locally while the page stays open.
Reconnection	Server revalidates saved admissions. Needs review means not accepted. Resolve and retry; do not clear browser data with pending records.
Junior handoffs	Online authorized guardian QR, or permitted staff identity verification and selection. Pending/unrelated authorizations cannot release a junior.
Daily/session attendance	Online records distinct from admission. Daily attendance uses event-local dates. Session checks enforce eligibility, timing and capacity; an age override requires authorization and a reason.
Multi-day programme	All configured dated sessions with valid times, rooms, speakers and age groups. Search does not override eligibility; absent speaker details need organizer input.
Speaker Q&A / quiz	Separate moderated Q&A activities per speaker/session; guests can ask again. Timed quiz countdown/reveal/advance requires active timing and Guided Show automation.
FestioMe	GuestHub entry, chats, permitted DMs, invite-only groups, meetups and moderator controls. Announcement channels are read-only for ordinary guests.
Broadcasts	Review explicit/ticket-type recipients, channel consent and credits. Queued is not delivered; inspect final delivery records. Scheduled dynamic/frozen audiences are separate choices.

Not established: offline startup/reload, offline junior release, shared duplicate/occupancy state between disconnected devices, passive RFID, guaranteed network speed, or complete parity with another platform.

OPERATING HANDOVER

Rehearse the complete flow

Prepare → Record → Reconcile

Current operating procedure · October 6, 2026

1. ONLINE PREPARATION

Correct Active event

Prepare this scanner

Verify count + expiry

30-minute saved manifest

2. SHORT OUTAGE

Keep the page open

Eligible QR / manual admission

Blue result = locally queued

Duplicate checks: this device

3. RECONNECT

Sync saved check-ins

Server revalidates every record

Resolve Needs review

Do not clear pending records

Keep protected operations online

Guardian handoffs · daily/session attendance · check-out · live admission requirements

No offline startup/reload or cross-device duplicate guarantee. Rehearse with the venue network.

1. **Before arrival:** verify external registration/import ownership, guest identifiers and phone countries; publish the programme and validate all dates/rooms/speakers.
2. **Staff briefing:** assign event access and station actions. Demonstrate admitted, duplicate, denied and locally queued outcomes. Check the guardian authorization list and permitted verification method.
3. **Outage rehearsal:** use fictional guests on staging. Prepare a scanner online; disconnect, queue an eligible admission, reconnect, inspect reconciliation and a rejected record. Repeat on actual venue devices.
4. **Programme rehearsal:** demonstrate daily presence, session entry/exit, age denial and authorized exception. Confirm that an exception does not bypass capacity, timing or guardian rules.
5. **Live rehearsal:** submit two questions to the correct moderated speaker queue. Run a separate timed quiz, checking guest countdown, display reveal, next/previous and clear-display controls.
6. **Communication:** create a fictional group/meetup, inspect read-only announcements, then preview a selected broadcast audience. Send only to explicitly approved test recipients and verify delivery.
7. **Closing:** reconnect all scanners and resolve pending records before ending the event. Reconcile contributions, export permitted records and retain audit evidence.

Conference Center, website publication/FAQs, Giving Hub/finance, session materials, certificates and versioned Academy are documented in the full Help guide. Availability depends on configuration, permission and entitlement.

Current reference: /media/festio-current-operations.html
Full Help: /guide.html · **Academy:** /training

> This is documentation of implemented workflows, not a venue readiness certificate. Existing tests and dates in the original material remain historical. Event-owner approval is still needed for factual schedules, candidate lists, consent language and contact details.

FESTIO

A DIGITAL EVENT OPERATIONS PROPOSAL FOR

NCNMO Platform 2026

One connected experience for families, volunteers, program teams, speakers, and guests—from first arrival through the final report.

Dec 24–28
FIVE-DAY CONFERENCE

10 age groups
ONE COORDINATED PLATFORM

Live insight
DURING EVERY EVENT DAY

Prepared for the NCNMO National Planning Committee
September 2026

festio.events
events@festio.events

THE OPPORTUNITY

A gathering this rich deserves one operating picture.

Platform 2026 brings families, youth, scholars, professionals, and community leaders together in Indianapolis for five days of learning, worship, service, recreation, and connection. With parallel programs and ten age groups, the experience must feel simple to every guest while giving the planning team reliable information in real time.

> **Festio connects arrival, access, programming, meals, participation, community, and reporting around one guest record and one QR credential.**

01
A calmer arrival

Fast convention check-in, badge issue, live headcounts, and manual lookup for staff.

02
Safer junior handoffs

Authorized guardian verification and retained entry/exit records for configured children.

03
A more connected program

Personal schedules, simultaneous-session attendance, live participation, and adult networking.

Designed around NCNMO's program

Official event facts reflected here: December 24–28, 2026; Indianapolis; The Westin Indianapolis; programming across Junior Platform, youth, adults, workshops, social events, and community connection.

"The guest sees one journey. The planning team sees the whole gathering."

REQUESTED SOLUTION MAP

Every Platform program, connected

The proposed configuration covers NCNMO’s operational, engagement, communication, and reporting requirements in one guest journey.

Arrival & identity

- Platform arrival, check-in, and final check-out
- Printed ID card with an individual QR code
- Event and activity list in the guest experience
- Text and WhatsApp broadcasts

Program operations

- Gala Night attendance
- Youth sports registration and digital consent
- Attendance for concurrent sessions
- Live insight dashboard across tracked programs

Distribution & safeguarding

- Meal entitlement and collection
- Souvenir eligibility and distribution
- Junior Platform attendance
- Guardian handoff where NCNMO policy requires it

Participation & insight

- Afropreneur Challenge voting
- Quran Competition activities and results
- Ask the Sheikh moderated Q&A
- Singles Night meetup, polls, quizzes, and feedback

One credential, several uses

The same guest QR can support arrival, selected session attendance, meals, souvenirs, and configured Junior movements. Voting, questions, quizzes, and feedback run through Festio Live or linked Experience steps.

THE OPERATING MODEL

Clear stages from arrival to departure

1

Convention check-in

Confirm initial arrival, issue the QR badge, and update the convention headcount. No zone or guardian selection is required.

2

Program & zone access

Record session attendance, meal collection, and room movement. Junior handoffs verify the authorized adult.

3

Convention check-out

Record final departure separately from leaving an individual room or activity.

One reusable QR badge

- Convention arrival
- Concurrent session attendance
- Junior Platform movement
- Meal entitlement collection

One live command center

- Expected, checked in, and remaining
- Manual guest search
- Zone selection and direction
- Recent activity and synchronization status

Operational guardrail

For the NCNMO workflow, a guest must be checked into the convention before a room or activity movement can be recorded. This keeps the arrival count distinct from session and zone attendance.

JUNIOR PLATFORM

Safeguarding designed into the handoff

Each child has an individual credential. Each protected handoff combines the child's badge, the selected Junior zone, the movement direction, and an authorized guardian credential.

- **Explicit authorization.** Household membership alone does not grant pickup rights.
- **Two-credential verification.** Staff scan the guardian and child for configured junior movements.
- **Repeat visits.** IN → OUT → IN → OUT can be retained throughout the day.
- **Safe state transitions.** Duplicate entry, duplicate exit, and exit without entry are denied and audited.
- **Accountability.** Reports include child, guardian, relationship, zone, direction, time, decision, and operator.

9:00 AM · Drop-off
Zainab + authorized guardian → Junior A → IN

11:30 AM · Pickup
Zainab + authorized guardian → Junior A → OUT

1:00 PM · Return
Second verified entry retained as a new movement

3:30 PM · Pickup
Second verified exit; current presence returns to outside

NCNMO controls the safeguarding policy

Festio records the approved process. NCNMO will confirm which Junior groups require guardian verification, who may authorize pickup, and how exceptions are escalated before production.

FIVE-DAY GUEST EXPERIENCE

The right program for every generation

Festio Experience organizes the conference as a personalized journey. Age-group tags present relevant sessions while the program team can run overlapping rooms independently.

Audience	Proposed experience	Operational record
Junior A–E	Age-appropriate learning and supervised activities	Session attendance; guardian handoff only where NCNMO requires it
Groups 1–2	Youth sessions, recreation, and supervised engagement	Session attendance by track
Group 3	Young-adult programming and community connection	Attendance plus optional adult community access
Groups 4–5	Lectures, workshops, networking, and family programs	Attendance, engagement, and FestioMe
Whole gathering	Welcome, gala/social events, closing, and feedback	Convention attendance and aggregate insight

Concurrent sessions

Separate date, time, room, capacity, audience, and attendance for activities happening simultaneously.

Guest hub

A mobile itinerary with relevant sessions, tasks, event information, and participation links.

Program control

A single published journey with conditional steps instead of competing schedules.

Demonstration prepared

The staging model includes ten fictional attendees across all ten age groups and 29 Experience steps spanning the five conference days.

HOSPITALITY & PARTICIPATION

Meals, moments, and live audience energy

Meal entitlement check-in

Guests do not need to preselect what they intend to eat. At each dated meal station, staff scan the badge to confirm eligibility and record collection.

- Separate service by date and meal
- Eligible, served, and remaining counts
- Repeated scans return the original serving record
- Dietary details visible only to relevant staff

Festio Live

Turn rooms into shared experiences with activities controlled from the organizer workspace and displayed on projectors or LED screens.

- Polls and quizzes
- Moderated Q&A
- Word clouds and ratings
- Room-specific displays
- Post-event response exports

Prepared demonstration

Six dated meal checkpoints, eight Festio Live activities, five display scenes, and sample participation data are ready in staging for rehearsal.

FestioMe for adult community connection

Approved adult participants can discover shared interests, connect, and continue useful community conversations. The NCNMO demonstration restricts FestioMe membership to explicitly approved adults and authorized event staff.

Discover

Find attendees through shared professional, service, and community interests.

Connect

Build relationships during and after sessions without exposing junior profiles.

Moderate

Apply event access policy and organizer oversight to the community space.

BADGING & INSIGHT

A credential guests can use everywhere

Proposed printed ID card

- NCNMO and Platform 2026 branding
- Guest name and age-group designation
- Scanner-compatible individual QR code
- Color cue for program operations
- Bulk print layout with crop marks

Live operational reporting

- Convention arrival and departure
- Room and session turnout
- Current zone occupancy
- Junior movement and guardian audit
- Meal collection

Post-event reporting

- Participation and response totals
- Survey and session feedback exports
- Attendance trends
- CSV exports for operational records
- Evidence for future planning

Final production quantities, card stock or PVC format, lanyards, printer model, replacement process, on-site equipment, and shipping will be confirmed with NCNMO before ordering or printing.

ATTENDANCE OPERATING PLAN

Track concurrent sessions with phones already on hand

Festio runs in a browser and can use the camera on a suitable smartphone or tablet. NCNMO does not need to purchase dedicated barcode scanners for the proposed workflow.

A
Priority tracking

Track arrival, Junior Platform, meals, souvenirs, competitions, and selected high-value sessions. This provides strong insight with the smallest volunteer footprint.

B
Full room tracking

Assign one trained room ambassador with a phone at each tracked entrance. Parallel sessions require parallel operators during the arrival window.

C
Managed support

Festio can supply an agreed on-site lead or scanning team as an optional service when NCNMO does not want to staff every checkpoint.

The practical recommendation

Use NCNMO volunteers with their existing phones for most checkpoints, supported by one Festio operations lead during rehearsal and peak periods. Track every critical entitlement and safeguarding movement, then select the sessions where person-level attendance will materially help planning.

Checkpoint	Recommended operator	Equipment
Main arrival and final departure	NCNMO registration team; Festio lead at peak arrival	Existing phones/tablets; optional laptop and badge printer
Junior Platform handoff	Designated NCNMO safeguarding staff	One camera phone/tablet per controlled entrance
Meals and souvenirs	NCNMO distribution volunteers	One phone per active distribution point
Concurrent sessions	Room ambassador for each session being tracked	Existing phone; no specialist scanner required
Festio Live activities	Session moderator or AV operator	Control laptop plus existing projector/display

Human coverage is the main variable. Person-level attendance at every simultaneous room requires an operator at each tracked door. The final quote should separate software, optional equipment, training, and optional Festio staffing.

DELIVERY APPROACH

From approved scope to event-day confidence

1 · Discovery and confirmation

Finalize attendance volume, registration source, program schedule, rooms, meal rules, guardian policy, badge format, staffing, and support expectations.

2 · Configuration and data preparation

Complete the production event, import or synchronize guests, configure experiences, access zones, activities, adult community policy, and reports.

3 · Rehearsal

Run arrival, manual lookup, junior handoff, concurrent-session, meal, Festio Live, connectivity, correction, and reporting scenarios.

4 · Training and launch

Train administrators, scanner teams, Junior Platform staff, meal teams, moderators, and room operators using role-based runbooks.

5 · Event execution and closeout

Provide agreed event-day support, monitor operations, resolve exceptions, and deliver post-event exports.

10
Demo guests
Across all age groups

Prepared for rehearsal

PROOF BEFORE PLATFORM 2026

Show the operating experience, then prove it with NCNMO

Festio’s experience spans community conventions, multi-day summits, faith-based gatherings, and private celebrations. The issued client presentation can pair these examples with approved dashboard views and customer references.

Women’s Convention

Convention planning, guest journeys, consent, check-in, distribution, and attendance.

MBF Summit

Multi-day Experience, live audience participation, displays, messaging, and feedback insight.

Al Azeema

Guest coordination, communications, event-day operations, and reporting.

Birthday events

Invitations, RSVP, guest management, branded experiences, and celebration operations.

INVITE | ADMIT | ENGAGE | MEASURE

Use customer quotations, names, screenshots, and measured results only with approval. Remove personal and confidential dashboard information before sharing.

Recommended pilot: NCNMO AGM

Offer the upcoming AGM as a limited preproduction experience covering registration, QR check-in, selected engagement, communications, and reporting. Agree success criteria before the event and use the review to decide whether to extend the model to Platform 2026 or ICARE.

Before

Confirm pilot scope, attendee volume, data owner, consent, operator roles, and acceptance criteria.

During

Run a small real event with trained users and agreed Festio support.

After

Review adoption, scan speed, engagement, data quality, and organizer feedback before expansion.

Optional expansion

A successful AGM pilot creates evidence for NCNMO’s decision. Any extension to Platform 2026, ICARE, or another program remains subject to NCNMO approval and a separately agreed scope.

PROPOSED SCOPE

A modular partnership shaped around NCNMO

Platform implementation

To be agreed

Event configuration, guest setup, Experience, check-in, Venue Access, meal checkpoints, Festio Live, FestioMe adult policy, reporting, and administrator training.

Printed ID cards

Quoted by quantity

Artwork, card material, QR printing, lanyards, packaging, replacements, equipment, shipping, and on-site distribution priced after format and volume confirmation.

Event-day support

Optional

Remote or on-site operational support, equipment preparation, scanner stations, room display setup, rehearsal, and incident response.

Messaging usage

Usage plan

Text/SMS, WhatsApp, email, and related carrier/provider charges confirmed after audience size, channels, consent, and campaign volume are known.

Commercial schedule

Festio will issue the final fixed-price schedule after the scope workshop. No equipment purchase, printing order, messaging campaign, or production promotion is included until NCNMO approves the corresponding line item.

Key decisions to finalize the quote

Expected registrations and peak arrival volume	Badge quantity, material, and delivery method
Official program, rooms, capacities, and session owners	Which ages require guardian-controlled handoff
Meal and souvenir eligibility rules	NCNMO volunteer versus Festio staffing coverage
Messaging channels and expected volume	Production launch and acceptance date

FESTIO

RECOMMENDED NEXT STEP

Rehearse the whole family journey.

Bring the registration, Junior Platform, program, food, communications, and technology leads into one working session. We will walk through a family's complete five-day experience, confirm the operating rules, and convert the approved scope into a final commercial schedule.

Scope & rehearsal workshop

Confirm program data · validate guardian policy · select badge format · rehearse check-in and room flows · review Festio Live and FestioMe · approve reporting and support plan
