FESTIO KNOWLEDGE UPDATE · OCTOBER 6, 2026

Current capabilities and operating limits

> Read these current instructions before the original material that follows. Earlier presentations, proposed workflows and screenshots are historical context. They do not override the limits below or prove a feature passed a venue rehearsal. Prices and customer-specific commitments must be confirmed separately.

Capability	Implemented behavior and conditions
General admission	QR/manual admission with immediate result feedback; event, staff access and guest rules still apply.
Offline preparation	Prepare this scanner online. An event-matched manifest expires after 30 minutes. Eligible general admissions can be queued locally while the page stays open.
Reconnection	Server revalidates saved admissions. Needs review means not accepted. Resolve and retry; do not clear browser data with pending records.
Junior handoffs	Online authorized guardian QR, or permitted staff identity verification and selection. Pending/unrelated authorizations cannot release a junior.
Daily/session attendance	Online records distinct from admission. Daily attendance uses event-local dates. Session checks enforce eligibility, timing and capacity; an age override requires authorization and a reason.
Multi-day programme	All configured dated sessions with valid times, rooms, speakers and age groups. Search does not override eligibility; absent speaker details need organizer input.
Speaker Q&A / quiz	Separate moderated Q&A activities per speaker/session; guests can ask again. Timed quiz countdown/reveal/advance requires active timing and Guided Show automation.
FestioMe	GuestHub entry, chats, permitted DMs, invite-only groups, meetups and moderator controls. Announcement channels are read-only for ordinary guests.
Broadcasts	Review explicit/ticket-type recipients, channel consent and credits. Queued is not delivered; inspect final delivery records. Scheduled dynamic/frozen audiences are separate choices.

Not established: offline startup/reload, offline junior release, shared duplicate/occupancy state between disconnected devices, passive RFID, guaranteed network speed, or complete parity with another platform.

OPERATING HANDOVER

Rehearse the complete flow

Prepare → Record → Reconcile

Current operating procedure · October 6, 2026

1. ONLINE PREPARATION

Correct Active event

Prepare this scanner

Verify count + expiry

30-minute saved manifest

2. SHORT OUTAGE

Keep the page open

Eligible QR / manual admission

Blue result = locally queued

Duplicate checks: this device

3. RECONNECT

Sync saved check-ins

Server revalidates every record

Resolve Needs review

Do not clear pending records

Keep protected operations online

Guardian handoffs · daily/session attendance · check-out · live admission requirements

No offline startup/reload or cross-device duplicate guarantee. Rehearse with the venue network.

1. **Before arrival:** verify external registration/import ownership, guest identifiers and phone countries; publish the programme and validate all dates/rooms/speakers.
2. **Staff briefing:** assign event access and station actions. Demonstrate admitted, duplicate, denied and locally queued outcomes. Check the guardian authorization list and permitted verification method.
3. **Outage rehearsal:** use fictional guests on staging. Prepare a scanner online; disconnect, queue an eligible admission, reconnect, inspect reconciliation and a rejected record. Repeat on actual venue devices.
4. **Programme rehearsal:** demonstrate daily presence, session entry/exit, age denial and authorized exception. Confirm that an exception does not bypass capacity, timing or guardian rules.
5. **Live rehearsal:** submit two questions to the correct moderated speaker queue. Run a separate timed quiz, checking guest countdown, display reveal, next/previous and clear-display controls.
6. **Communication:** create a fictional group/meetup, inspect read-only announcements, then preview a selected broadcast audience. Send only to explicitly approved test recipients and verify delivery.
7. **Closing:** reconnect all scanners and resolve pending records before ending the event. Reconcile contributions, export permitted records and retain audit evidence.

Conference Center, website publication/FAQs, Giving Hub/finance, session materials, certificates and versioned Academy are documented in the full Help guide. Availability depends on configuration, permission and entitlement.

Full Help: /guide.html · **Academy:** /training

> This is documentation of implemented workflows, not a venue readiness certificate. Existing tests and dates in the original material remain historical. Event-owner approval is still needed for factual schedules, candidate lists, consent language and contact details.

PROPOSED DIGITAL EVENT OPERATIONS SOLUTION

One connected Platform 2026 experience

Festio brings NCNMO's five-day convention into one coordinated guest journey—from registration and arrival to programs, meals, participation, communications, and final reporting.

One guest record. One reusable QR credential. A live operating picture across the gathering.

For attendees and families

- Clear event and activity list
- Fast arrival and printed QR ID card
- Relevant programs by age group
- Timely text and WhatsApp updates
- Simple polls, voting, Q&A, and feedback

For NCNMO's operating team

- Convention and session attendance
- Meal and souvenir distribution records
- Junior Platform movement oversight
- Live dashboards across tracked programs
- Downloadable reports and audit history

Platform arrival, check-in & final check-out	**Unique QR ID cards**	**Gala Night attendance**	**Youth sports consent**
Meal management	**Souvenir distribution**	**Junior Platform**	**Concurrent-session attendance**
Afropreneur voting	**Quran Competition activities**	**Ask the Sheikh Q&A**	**Singles Night meetup**
Polls & quizzes	**Text & WhatsApp broadcasts**	**Feedback**	**Live operational insight**

Festio Experience + Festio Live + FestioMe

Experience organizes the multi-day journey. Festio Live powers voting, polls, quizzes, moderated questions, feedback, and display moments. FestioMe supports approved adult community connection with event-specific access controls.

Junior Platform can use a configured guardian handoff

Where NCNMO policy requires it, staff record the child, authorized guardian, Junior area, entry or exit direction, time, decision, and operator. Repeat movements can be retained throughout the day.

PRACTICAL IMPLEMENTATION

A lean rollout with proof before scale

The recommended model limits equipment costs, uses NCNMO's existing team where practical, and gives the committee evidence before committing to the full convention.

1

Demonstrate

Review the configured staging journey, dashboards, prior-event screenshots, badges, reports, and approved customer references.

2

Pilot at the AGM

Run a limited real-event experience with agreed success criteria, training, communications, engagement, and reporting.

3

Scale by approval

Use the pilot findings to finalize Platform 2026. Any future ICARE deployment remains optional and separately scoped.

How attendance works during simultaneous programs

Checkpoint	Recommended coverage	Equipment
Main arrival and departure	NCNMO registration team; optional Festio peak-period lead	Existing phones/tablets; optional badge printer
Junior Platform	Designated NCNMO safeguarding staff	One phone/tablet per controlled entrance
Meals and souvenirs	NCNMO distribution volunteers	One phone per active station
Concurrent sessions	One room ambassador at each session NCNMO elects to track	Existing camera phone; no specialist scanner required
Festio Live	Session moderator or AV operator	Existing laptop and projector/display

Recommended balance

Track every critical checkpoint—arrival, Junior Platform, meals, souvenirs, competitions, and Gala Night—then select the sessions where person-level attendance will materially improve planning. Tracking every simultaneous room is possible, but it requires an operator at every tracked entrance. Festio can quote an optional managed scanning team.

Women's Convention

Guest journeys, consent, check-in, distribution, attendance

MBF Summit

Multi-day Experience, Festio Live, messaging, feedback

Al Azeema

Guest coordination, communications, operations, reporting

Birthday events

Invitations, RSVP, guest management, branded celebration

INVITE | ADMIT | ENGAGE | MEASURE

Add approved testimonials and anonymized dashboard evidence; remove confidential information before sharing.

Recommended next decision

Approve a working session to confirm the AGM pilot, priority attendance checkpoints, Junior policy, communications, badge format, NCNMO volunteer roles, optional Festio support, and the success measures used to decide on Platform 2026.
